Tutor feedback

One girl who attended is an elective mute in school. She was slowly persuaded to take a line of dialogue, then ended up having a central role in one number and is now part of the whole school summer production after successfully auditioning."

"Behaviour was consistently good and a genuine 'team spirit' was created, with lots of support for weaker ones within the group"

The group were of a lower ability and skill set than in previous groups but the rate of progress was very fast, although not as much was achieved for the final performance their progress was more visible"
