

## Summer 2021

x 14 Students

*The young people actively made new friendships with others outside their year groups and friendship circles.*

## School Feedback

*"It has been a very successful summer school, and it was great to see so many young people returning who took part in the course at Easter. Their progress over the four days was fantastic, and engagement was consistently high. I specifically enjoyed seeing many of the young people making friends with others outside their year groups. We have discussed the possibility of making this course a permanent fixture within our enrichment timetable and we're so glad we now have a relationship with Hastings Thrives to further opportunities can be offered in the future."*

## Tutor feedback

*The development of performance skills was exceptional, with some initially reluctant performers taking lead roles in the final performance"*

*Many of the young people commented they would now be more interested in attending performing arts clubs at school*

*Young people contributed much more to the content of the course this time with several discussions about their own likes and interests being used to inform decisions around what was included each day*

*Many young people arrived early on several occasions to complete extra rehearsal and refine their skills*
