### Parent Feedback

*P\*\*\* has enjoyed this week immensely and has been super enthusiastic each day. The course facilitators have been amazing and his experience has been very positive. Many thanks!*

*A\*\*\* has really tried; she normally struggles with new things but has loved this. Made her come out of her shell.*

*"Definitely a positive experience, she has come home beaming every day. (I have really enjoyed it and it's fully made me smile!)"*

### Tutor Feedback

*Development of confidence and social skills has been mentioned repeatedly in feedback*

*One girl, who suffers from severe anxiety and attachment issues, has found a new skill and wants to pursue performing arts clubs at school and outside. Her mother commented that her anxiety had been "noticeably low" all week and being involved had "really helped her"*

*Another young girl who has global learning delays, managed to learn and perform 10 different scenes/numbers without prompting"*
